EDUCATION

BSc (Hons) in Information Technology (2022–Present)
University of Jaffna
G.C.E. (A/L) Examination (2020)
Seethadevi Girls' College, Kandy
◊ Physical Science Stream

LANGUAGES

English
Sinhala

TECHNICAL SKILLS

- Java, Spring Boot, Node Js
- React, Next JS, HTML, CSS, Tailwind CSS
- MySQL / MongoDB
- Git/GitHub
- Postman

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Leadership
- Team Collaboration
- Communication
- Time and Task Management

PROFILE SUMMARY

Information Technology undergraduate with hands-on experience in building full-stack web applications using Spring Boot, React, and MySQL. Developed secure RESTful APIs with JWT-based authentication and implemented scalable frontend–backend integrations. Passionate about problem solving, writing clean and efficient code, and continuously learning modern software engineering practices to contribute effectively in a collaborative development team.

PROJECTS

Shopping Mart - E-Commerce Website (Ongoing) GitHub

- ◊ **Tech Stack:** React, Spring Boot, MySQL
- ◊ Architecting and developing a role-based e-commerce platform using Spring Boot and React, implementing JWT authentication and secure REST APIs for user, product, and order management. Designed normalized MySQL database schemas and ensured scalable backend–frontend integration.

User Management System GitHub

- ◊ **Tech Stack:** React.js, Spring Boot, MySQL
- ◊ Designed and implemented a full-stack user management system using Spring Boot and React.js, developing secure RESTful APIs for CRUD operations and integrating them with a MySQL database. Implemented input validation, exception handling, and structured service layers to ensure reliable backend processing and seamless frontend–backend communication.

DisasterWatch - Real Time Weather Application GitHub

- ◊ **Tech Stack:** Next.js, React.js, MongoDB, Node.js
- ◊ Contributed as a front-end developer, designing a responsive UI and integrating real-time disaster notification features. Ensured timely alerts and a user-friendly interface while collaborating with the backend team to connect APIs and manage data flow.

Barco Global Logistics (Pvt) Ltd GitHub Live Demo

- ◊ **Tech Stack:** Next.js, React, Formspree
- ◊ Designed and developed a responsive website with contact form integration using Formspree for automated submissions.

RESEARCH

An agentic AI framework for Code Smell detection and LLM-Based refactoring in Continuous Integration systems (Ongoing)

- This research aims to develop an agentic AI framework for intelligent code smell detection. The system will provide automated refactoring suggestions during pre-commit and CI/CD workflows.

EXTRA-CURRICULAR ACTIVITIES

University Colors for Volleyball-Half Color	2024
Team Captain – University Volleyball Team	2024 - 2025
Program Team Member – IEEE(IAS - Sri Lanka)	2024
